The 44 Elite is shown with the Charcoal Painted Artisan™ Double Door.

The 44 Elite really brings the heat! This powerhouse catalytic home heater has the largest firebox available in its class and can heat grand spaces up to 3,000 square feet. This massive fireplace features a huge viewing area and our signature Posi-Pressure technology, which utilizes fresh outside air to evenly heat your entire home. The beauty of the 44 Elite is showcased with its Classic Arch door and elegant double doors, which replicate the look of a traditional masonry fireplace.

SPECIFICATIONS

Heating Capacity:*	Up to 3,000 square feet
Maximum Burn Time:	Up to 12 hours
Log Length:	32"
EPA Tested BTU Range:	12,947 to 78,046 BTUs/Hr.
Real World BTUs:	

EPA tests to determine BTU output are achieved with a single load of wood at each burn rate. At home, you are likely to add more wood to your stove to maintain your desired comfort level. By the simple process of loading your stove with additional wood, you could achieve up to a 20% higher heat output than established during EPA testing.

Emissions:	1.8 grams/particulate per hour (cord wood)
Efficiency:**	73% HHV
Firebox:	4.2 cubic foot
Glass Viewing Area:	Ceramic Glass, Double Door 14-3/8" W x 18-1/4" H (each side), 473.6 Sq. In.

*Heating capacity may vary depending on degree of home insulation, floor plan and ambient temperature zone of the area you live.

**As tested using B-415.1 using Cord Wood. HHV = High Heat Value.
